SAVING LIVES

Friend,

Thanks to your efforts, President Biden was forced to withdraw his nomination of David Chipman for ATF Director.

It's no secret that David Chipman was a danger to Americans willing to protect their families... Chipman's beliefs and political action has repeatedly inhibited your ability to protect your family, making him unfit to serve as ATF Director.

Now, we need to show President Biden and his administration that we want an ATF Director who will AFFIRM our right to keep families safe and REMOVE barriers for responsible gun owners.

Will you chip in now to help tell Biden that we need an ATF Director who respects and honors our right to keep our families safe?

[I'm inviting you to ADD YOUR NAME immediately to make your voice heard.](#)

[By chipping in any amount, we'll add your name to our page to show the massive number of Americans who want an ATF director who respects our right to keep our families safe >>>](#)

MAKE YOUR VOICE HEARD

Now, we need to demand a new ATF nominee who will actually serve our families and help protect our right to defend them.

[Chip in now to help make sure that our efforts succeed once again.](#)

Sincerely,

SAVING LIVES

Friend,

We're advocating every day for the right to keep your family safe by carrying a concealed firearm.

The data doesn't lie... Concealed carry SAVES lives.

But not everyone believes that, including David Chipman.

Chipman, President Biden's nominee to lead the ATF, worked for an organization which believes concealed carry to be "a danger to public safety."

Thanks to advocacy from Americans like you, his chances of being confirmed are dwindling... But some in Washington still support him. **We need to double down and make our voices heard!**
